REJIN CUSI

JUNIOR WEB DEVELOPER

Newly graduated from a coding Bootcamp seeking a career position in tech industry to further develop experience and expertise in frontend, backend or fullstack web development.

PROJECTS

- GETIX (<https://getix.netlify.com>)
- This is a fullstack application for selling events ticket just like ticketswap. I made this project using ReactJs for frontend, NodeJS for backend and Postgres for the database.
- OAuth 2.0 and OpenId Connect (<https://auth-admin-client.herokuapp.com/>)
- An authentication/authorization provider implemented in node.js. This project is a collaboration project and I added new feature which is email service that reset password.
- MCU (<https://mcu-vuejs.herokuapp.com/>)
- A VueJS project to showcase all about Marvel Cinematic Universe made within three days for final presentation in the hackathon. This project has won 2nd place for best app.

ACADEMIC

- Full-Stack Web Development
Codaisseur Code Academy
Amsterdam, Netherlands
September 2019
- Short Online Courses on Udemy
 - Practical PHP: Master the Basic and Code Dynamic
 - React vs Angular vs VueJs
 - jQuery and AJAX for Beginners
